

**TALCUM TIME**

There are many good Talcums, but we especially recommend

**Our Violet Talcum**

It is an air-floated powder, delicately perfumed. It prevents chafing and is a perfect powder for all toilet purposes.

Price 25c

## PLENTY TIME YET TO GROW FEED

Brazos County Agent Tells of Quick Maturing Crops That Can be Grown.

Now that we have one of the best and most thorough seasons ever known in the month of August there will be plenty of time to grow almost anything before a killing frost. As there is a very poor corn crop and feed of all kinds is going to be scarce, will it not be well to plant some quick maturing crop on some of the land on which there is no crop of any kind now growing? On nearly every farm there is some of this vacant land. The first question is what shall we plant? The answer is, many things can be planted and matured. One is peas, another is peanuts, another sorghum, another milo maize, but in our opinion the very best and surest crop that can be planted is Feterita. The reason is because of its very quick growth. We give the following personal experience with it: On the 3rd of June we planted a patch from which oats had been cut, and it was getting real dry, but the feterita was planted and the ground packed so the seed would come up and not dry out. They were up in four days. This patch was harrowed three times and each time the ground was packed with a rolling barrel filled full of dirt. This preserved the moisture and kept the feterita green and growing, although it was dry and hot. On the 8th day of July, just thirty-five days from the day it was planted there were heads to be seen in it and it is just two months today since it was planted and if it were not raining it would be ready to harvest. It has grown and made without rain, and had it not been for this worst and most destructive of all pests, the English sparrow, the yield of grain would have been splendid. Now, if I have done this in two months with no season at all, not even to start in with, it seems that it could be done the more easily in the next two months with the splendid season that we have to start with. Of course the seed will be the greatest difficulty just now, but Mr. W. T. Jones, Bryan, Route No. 6, told us some days ago he would have plenty of seed to sell of his own home raising, and I am sure they are full ripe and ready to plant. I believe that a patch of feterita well planted and harrowed for cultivation about twice will be the easiest and cheapest feed one can get now. If not feterita, plant something, anything will make.

A. W. BUCHANAN,  
Agent Brazos County.

P. S.—If you cannot get the seed from Mr. Jones you can get them from any Texas seed house in three or four days.

**SPECIAL COUNCIL MEETING.**

City Well to be Sunk to Depth of 1000 Feet...Power Plant Permit Granted O. E. Gammlil.

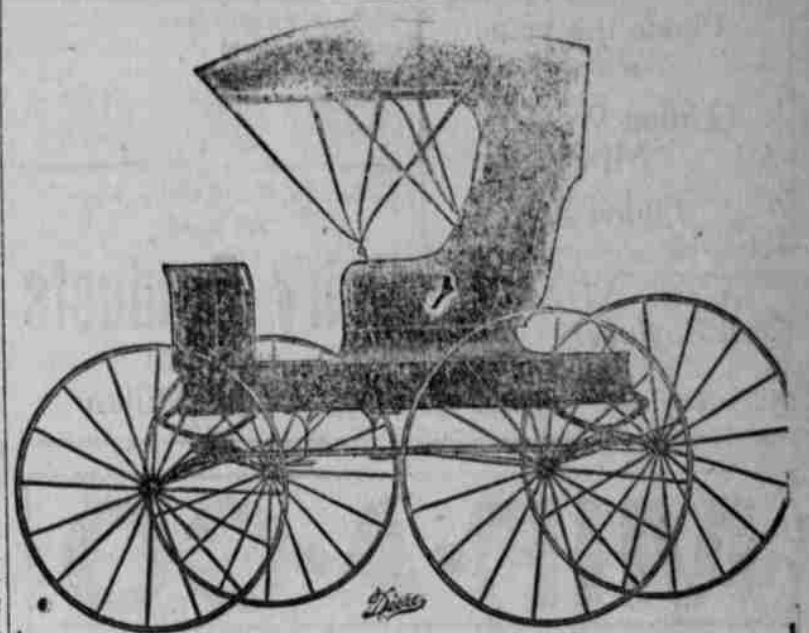

A call meeting of the City Council was held this morning at Vick's Feed Store with Mayor Harris, presiding, and Aldermen Haswell, Levy, Vick and Wilson present.

The contract for sinking the deep well at the Power plant to a depth of 1000 feet, or an additional depth of about 500 feet, was let to Mr. Fred Standard of League City. Mr. Standard has just finished sinking a new well for the city and will begin on the new job in a short while.

A motion was made and carried that Mr. O. E. Gammlil, Manager of the Bryan and College Interurban, be allowed to install a power plant for use in the electrification of the car line, but that he will not be allowed to sell power to any resident in the City limits.

A committee from the property owners on West Anderson street appeared before the Council and asked that Anderson street be graveled or paved as they had asked the Council by petition some time ago. This matter was deferred to a later meeting as the Street Improvement Bonds have not been sold.

The meeting adjourned.

You want comfort and quality when you buy a Buggy. Easy springs and long, roomy bodies make comfort; good hickory material in wheels and gear, with proper finish make John Deere quality. They have a reputation for endurance, because those who are using them say "John Deere Buggies Stay on the Road."

We have a complete assortment. Another car to arrive within a few days. Let us show them to you.

LOUIS HANUS HAS CHARGE OF OUR HARNESS REPAIR DEPARTMENT

Hensarling Mercantile Company

This is reported to be several thousand bales less than the year before.

The Bryan Cotton Compress pressed 33,868 bales during the season of 1913-14 and 51,000 bales the season before, making a decrease in '13-14 of over 16,000 bales. Much of the cotton compressed is shipped in by rail and not counted in the warehouse receipts.

Following are the receipts of the Warehouses for this season up-to-date:

Lawrence Warehouse.....8

Brick Warehouse.....2

Union Warehouse.....1

Total.....11

**HAD LEG BROKEN.**

R. C. Johnston, a carpenter, received a painful fall this morning while doing some repair work on the residence of Judge J. W. Doremus, sustaining a broken leg. He was given immediate surgical attention and was resting comfortably this afternoon.
